HUGHES SPEAKS TO GREAT THROG IN SALT LAKE CITY

A Crowd That Fills Every Available Foot of the Mormon Tabernacle Hears the G. O. P. Nominee.

(BY MORNING JOURNAL SPECIAL LEADER WIRE) Salt Lake City, Utah, Aug. 24.—Charles E. Hughes, speaking before an audience that crowded every available foot of space in the great Mormon tabernacle here tonight, assailed the administration for "specious disregard" of the civil service regulations in making appointments, declared that he stood for faithful observance of the service and asserted that he would extend its sphere if elected.

Mr. Hughes spoke with the democratic candidate for governor on the platform and with other democratic candidates and party officials, especially invited guests, in the hall.

The Merit System.
"We have had under this administration," the nominee said, "law after law enacted providing for the creation of thousands of places with provisions to the effect that it should not be necessary in making the appointments to conform to the merit system, which is another way of saying they need not be made under civil service regulations."

"Judicious exclusions were made," he declared to one. Every one of those exclusions designed to make inapplicable the merit system and to afford an opportunity to provide partisan and political spoils.

"We must seriously guard against that. So far as I am concerned, the operation of the merit system will be recognized and extended in order that we increase the standard of public work, that we elevate those standards, that we may have efficiency in the public service."

Claims of All Candidates.
Mr. Hughes referred to "claims of all candidates that they want efficiency of government."

"I should not expect you would think what I say worthy of special attention," he said, "were it not that I have devoted four of the best years of my life, practically all of my life, to the study of the merit system. The nominee referred to the administration's policy toward the Philippines."

"We have talked too much about our principles," he said, "it is now time to talk about our obligations. I am friends, on the other side, had had a proper sense of the obligations of this government, they would never have proposed that we scuffle out of the Philippines and leave them to take care of themselves."

Fair Dealing.
"I propose that we shall have them in the administration of the Philippines the highest standard of efficiency and fair dealing."

"Fundamentally, the question is one of national honor. We took the Philippines under a sacred obligation. It is our duty to discharge that obligation and I propose that we hold the flag of the United States before the world as a flag which never betrays a trust."

The Park Barrel.
The nominee repeated his criticism of the administration's policy toward the Philippines.

(BY MORNING JOURNAL SPECIAL LEADER WIRE) Chihuahua City, Mexico, Aug. 24.—A Japanese physician by the name of Nodko claims to have vouchered for the death of Villa by slow poison, given under the guise of medicine, according to the Chihuahua local press today. To prevent the deception from being discovered, Colonel Baco is said to be surrounded by his personal bodyguards, who keep the common soldiers and rancheros from coming too near. Dr. Nodko, according to the papers, has been administering poison for three months, with the result that Villa died shortly after his defeat at Parral.

A colonel, five months, three captives and nine prisoners, belonging to small remaining bands of rebels, are reported by Gen. Hilaria Rodriguez to have surrendered to him in Parral and northern Zacatecas. The conference was held at La Brea. The colonel in the case was named Francisco Lopez. These men left after their surrender, and the message to General Trevino, to bring in their companions under the offer of amnesty.

HALDERMAN GIVES HIS OPINION OF HUGHES

Halderman, national democratic commissioner from Kentucky, who has just returned from a trip through several middle west states and a conference today with Mayor C. McPherson, chairman of the democratic national committee, in which he gave his opinion of the Hughes campaign.

Mr. Hughes seems to have made no impression in the west," said General Halderman. "His utterances have not more than bettered the republican cause. Hughes has not shown any constructive statesmanship. His greatest fault is his attempt to revive nationalism. Every real lover of his country, be he from the west, east, north or south, despises these unproductive efforts to play upon unjust prejudices long since buried by a generous people."

He declared that the time had come to protect American business and achievement, not to cripple or destroy it.

Mr. Hughes was introduced by a local business man, who said that delegates to both the progressive and republican conventions at Chicago had made by side on the platform.

The press gives liberal praise to the fair and courteous conduct of the United States government. The Cologne Gazette says:

BOND ISSUE FOR ROADS FAVORED BY RICHARDSON

Roswell Judge Would Have Chaves County Issue Indebtedness of \$100,000 for Improvement of Highways.

(BY MORNING JOURNAL SPECIAL LEADER WIRE) Roswell, N. M., Aug. 24.—Chaves county will vote a bond issue of \$100,000 for good roads soon, if Judge J. A. Richardson has his way. Judge Richardson believes the county should do this and receive an additional \$100,000 from the government under the Shuckford and Hamilton bill recently passed by congress and approved by the president.

This bill carries with it a total appropriation of practically \$1,000,000, of which New Mexico will be entitled to \$2,500,000. While only \$75,000 will be available this year, New Mexico's quota will be larger next year.

"If Chaves county would issue by a vote of her people bonds for the amount of \$100,000 and thereby secure another \$100,000 of the federal funds, it would give the county a road fund that would enable her to put her present roads in good condition," said Judge Richardson. "Then, with a slight maintenance fund the county would be able to take care of not only the main roads but the roads, but the man who travels from adjoining states. There are many coming into Roswell from all directions at this season and are constantly coming and the number is increasing annually. We are not getting much travel we should have and I think this whole question is one which should receive serious consideration from our people."

Judge Richardson's suggestion carries with it another matter which is somewhat related—that of national parks. He believes there should be a national park on the Mesquite reservation west of Roswell, one at Jemez Hot Springs, west of Albuquerque, and one including the battlefield of Gila Cliff.

He believes these parks should be established by joint state and federal action and then a complete system of highways connecting them established. He points out that much of the road is already built, and that when the system was completed, it would afford one of the most alluring automobile routes for tourists in the United States.

EASTERN NEW MEXICO IS DRENCHED BY RAIN

Roswell Judge Would Have Chaves County Issue Indebtedness of \$100,000 for Improvement of Highways.

(BY MORNING JOURNAL SPECIAL LEADER WIRE) Roswell, N. M., Aug. 24.—If there is a rapid in eastern New Mexico who has not received a severe drenching within the past week it has not been discovered. And while there has been some relief in the automobile travel who can see the unpleasant side of it, it is said that cars have been stranded on every road in the eastern part of the state, and that in places there were as many as ten cars stranded within a mile. So much water has fallen that in the lower places the roads were for a time practically impassable.

Beginning a week ago, good roads have fallen every day in the immediate vicinity of Roswell. While not all of these have extended over all the eastern slope, at some time or other every section has had a heavy rain. Chaves county is practically all of it. It received a rainfall which averaged five inches about two weeks ago. The ground had scarcely dried when the rains of the past week came. The grass had just started good on the range and the recent rains have put it in such fine condition that for miles and miles the range resembles blue grass pasture. Stockmen say they have never seen such wonderful grass at this time of year, and that without another drop of rain this fall plenty of winter grass is assured for a heavily stocked range.

The rains, however, put a severe crimp in the crowds at the Lovington picnic, starting August 24. While the early indications were that large crowds would attend the three day festivities, the attendance was reduced 50 per cent because of the bad roads. The Roswell business men had planned a big excursion to the picnic but because of the mud only a few automobile loads could make the trip.

Bodily Housekeeping

BY V. M. PIERCE, M. D.
The subject of drinking water with meals has been misunderstood for a hundred years.

In recent years investigation by means of X-rays, the observations of scientists such as Cannon, Grenier, Pavlov, Foster, Hawk, prove that an abundance of water taken during digestion is necessary in good bodily housekeeping. Drink plenty of water with each meal. Do not drink any water at any time.

If your kidneys are sick, if you suffer with indigestion or constipation of the bowels, take a little "Anurion" before meals. This can be found at any good drug store. Therefore my advice is to drink of it is, always drink plenty of pure water. And for long life, occasionally, take light of "Anurion" three or four times a day.

Notice to the Public

The Morning Journal and The Evening Herald, respectively find it necessary to raise their subscription rates. This action is made imperative because of the following facts:

The price of print paper purchased in various lots heretofore has been \$1,000 a car at the factory.

Due to difficulty in securing pulp, the factory price now is \$2,500 per car, and the indications are that the price of print paper may go even higher.

Instead of paying even on their circulation, or taking only a small loss at the present prices of subscription, the advance in print paper has become a heavy burden. Hence both The Journal and The Evening Herald announce the following subscription rates effective on and after September 1:

The Albuquerque Morning Journal, by the year, in advance \$7.50
By the month 70c
The Albuquerque Evening Herald, by the year, in advance \$6.00
By the month 60c

Wherever normal conditions are restored and circumstances will justify it, the prices above quoted will be reduced proportionately.
